Shawn – attached you will find the legal opinion from David Ormond of Delaware’s Department of Justice regarding the Bloom waste issue. I understand that there may be a conversation with counsel from DNREC and EPA soon and I am hopeful that this opinion will shed light on the reasons for our position and inform that conversation. As you may know, David Ormond has retired from state service and I am copying Dirk Durstein who oversees the Environmental Unit for DOJ. Please let me know if you have questions or concerns.

Best,
David
